True Black

OTHER

Kuretake Gansai Tambi Watercolor Paint

INSTRUCTIONS

STEP 1:

To create this A7-sized card, cut two panels, 6-7/8" wide X 5" tall from Classic Kraft cardstock. Die cut two Fantastic Fronts from a Vintage Cream or a natural white cardstock. Use watercolor inks to splatter black and brown on the Fantastic Front die cuts to make them look more organic and imperfect. Next, die cut a full set of the florals from Hawaiian Shores, Terracotta Tile, Sweet Blush, and Summer Sunrise cardstock. For the leaves, splatter some green watercolor paints over Limeade Ice cardstock and cut the leaves and stems from the splattered cardstock using the dies.

STEP 2:

Assemble the florals by gluing the layers together. Add a complementary color center to the large ones to unite the flower grouping. Save the unused flower pieces for another project!

Add double-sided adhesive to the inside of the flaps on the Fantastic Fronts die cuts.

STEP 3:

Attach the Fantastic Fronts to the short sides of one of the kraft panels, centering them on the sides and securing on the back using the double-sided tape. Cover the back side of the flaps by gluing the other Kraft panel to the back (i.e., sandwiching the flaps between the two pieces of Kraft cardstock.) Make sure to glue close to the edges so the back panel appears to be one panel. The Fantastic Fronts should fit match perfectly from both sides with the middle frame design on the fronts, overlapping. Add two small self adhesive Velcro dots to the flaps as shown for a secure closure. TIP: Attach the flaps together using Velcro FIRST (overlapping the frames) then attach the side flaps to the back panel for a perfect fit every time!

INSTRUCTIONS

STEP 4:

Attach the flaps together using the Velcro closure inside. The gatefold opening is ready to decorate.

STEP 5:

Position three large daisies to the center of the card front, spacing them equally in a line. Use foam dots to attach the daisies so that they stand out a bit. Complete the look by adding smaller flowers around the larger ones and alternating them to have a nice balance of color and cohesive design. Glue the flowers in place.

STEP 6:

Add leaves and stems around the florals, tucking them in behind the daisies. Glue them in place. Stamp in black on white cardstock, the "Happy Birthday" sentiment. Die cut and attach the phrase using foam tabs, to the card front. Add yellow gem sticker pearls to the outside to accent the flowers.
